

MATH 107 (Spring 2021) - Midterm 1, INSTRUCTIONS

There will be four questions in the exam which you will be expected to solve one by one. The exam starts at 09:30 on March 21, 2021 Sunday and proceeds according to the following schedule.

- 9:30 - 9:55 is reserved for Question 1.
- 10:00 – 10:25 is reserved for Question 2.
- 10:30 – 10:55 is reserved for Question 3.
- 11:00 – 11:25 is reserved for Question 4.

You will be taking the exam through Blackboard.

(1) At the beginning of each time-frame (9:30, 10:00, 10:30, 11:00 for questions 1,2,3,4, respectively), the question will be available on Blackboard. You can access the question from the "To Do" menu, or alternatively from the "Course Content" folder. (In particular, click on the assignment entitled "Question j, Midterm 1" where j is the question number, then open the pdf file containing the question in the attachment.)

(2) Take an empty sheet of paper for each question. Write down your solution on this paper. Please also write down the question number, your name, last name, ID, section number on top of the paper. If necessary, you can use more than one sheet.

(3) Once you finish writing the solution, take a photograph of your solution using your cell-phone. Then attach the photograph to the assignment page on Blackboard (entitled "Question j, Midterm 1"). If you use more than one sheet, attach the photograph of each sheet separately. Click on submit.

(4) You must complete uploading by the end of the time-frame (that is by 9:55, 10:25, 10:55, 11:25, for questions 1, 2, 3, 4, respectively). I suggest stop writing and start uploading at least five minutes before the end of the time-frame.

(5) When uploading your solution to any of the questions, if you face a difficulty and time is running out, please e-mail the photograph of your solution to the following e-mail address:

math107instructors@gmail.com

The subject line of the e-mail must be "Question j, Midterm 1", where j is the question number.
